PERSONAL PROFILE

An enthusiastic Software Engineering Technician student interested in hardware and software integration. Detail-oriented, team player, and dedicated to continuous learning and innovation, I aspire to contribute effectively to cutting-edge projects, leveraging my education to bring value to progressive companies like Synopsys Corp.

SUMMARY OF QUALIFICATIONS

- Currently studying Software Engineering Technician at Centennial College.
- Familiarity with PCB design and troubleshooting.
- Proficient in relevant hard skills such as Java, HTML, and oscilloscopes.
- Effective communication and teamwork skills from collaborative projects.
- Knowledge of data collection and analysis.
- Demonstrated self-drive and capability to work independently.

EDUCATION

Software Engineering Technician

Centennial College, Toronto, Ontario, Canada. January 2022 – Present

Developing a solid software and hardware interplay foundation, focusing on hands-on applications, software design methodologies, and collaboration in team projects.

Relevant Courses Completed:

- PCB Design and Analysis
- Data Collection and Analytics
- Modern Software Development

Key Achievements:

- Maintained a GPA of 3.9 throughout the program.
- Led a group project on Web Development that was praised by faculty and resulted in an A+ grade.
- Collaborated in a team to develop a mini-PCB project, meeting all design objectives.
